A Message from Executive Director Michele Potter

Dear Residents & Family Members,

I am pleased to share with you that residents and associates in the Wilson Health Care Center are set to receive COVID-19 vaccinations on Thursday, January 7. We feel fortunate to have been scheduled this quickly and we look forward to this important milestone in our efforts to combat this virus.

As you may recall from our previous message on the vaccine, the CDC has developed a “phased in” approach that will begin with offering vaccines first to those who live or work in the Wilson Health Care Center as part of Phase 1. As more vaccines become available and following CDC and state guidelines, we expect additional vaccination opportunities in 2021. We will keep you updated as we learn more.

We strongly encourage all residents to receive the vaccine as it becomes available to them. While it is not required, getting the vaccine falls very much in line with our approach throughout the pandemic – that we join together in doing all that we can to minimize the impact of the coronavirus.

I am excited that we are at this next step in our fight against COVID-19. As a

community, we have partnered together more than ever since the onset of the pandemic, maintaining the highest regard for safety to protect each other. While availability of the vaccine represents a next step in our journey, we must continue with the precautions we have put in place – such as wearing masks, maintaining physical distancing, and continuing our screening processes – that have resulted in keeping our community as safe as possible.

We have launched a new Vaccine Information section on our COVID-19 Communications Hub at [Asbury.org/COVID19](https://www.asbury.org/COVID19). This new section includes an overview of our approach and Frequently Asked Questions.

We will get through this. We are closer now than ever. We are #AsburyStrong.

Sincerely,

Michele R. Potter
