

This message is going to Residential Living residents and family members on our community distribution list.

A Message from Vice President Melissa Fury

Jan. 25, 2021

Dear Residential Living Residents & Family Members,

I have some great news to share today! The Moderna COVID-19 vaccine is coming to Residential Living residents at Asbury Place Maryville.

We have partnered with Mac's LTC Pharmacy Solutions to provide Residential Living residents the opportunity to receive the vaccine during a vaccine clinic slated for Feb. 3rd here at Asbury Place Maryville (details below). We have been exhaustive in our efforts to offer this opportunity for Residential Living residents, and this clinic follows the COVID-19 vaccine clinics that were recently held for Skilled Nursing and Assisted Living associates and residents. We are pleased to be able to serve you and your fellow residents in maintaining health and safety through the offering of the COVID-19 vaccine.

Residential Living residents: Here's what you need to know

- The vaccine clinic is open for any Residential Living resident at Asbury Place Maryville.

- **Mark your calendar!** Here are the clinic details:
 - **Clinic for Asbury Place Maryville:**
 - **When: 8:30 a.m., Feb. 3rd** (*you will be assigned an appointment time*)
 - **Where: The Bistro**

- **In preparation for the vaccine clinics, you will receive a call from an associate the week of Jan. 25th (this week).** The associate will share additional details with you about the vaccine event.

- **All Residential Living residents will receive a COVID-19 Vaccine Consent Form in your mailbox.** If you wish to receive the vaccine, please complete and return the form to the Clubhouse. ***Form submission deadline is: Noon (12 p.m.) on Jan. 29th.***

- **We will assign each resident a time for your vaccine clinic appointment. Please bring a copy of your insurance card with you.** Please plan for 60 minutes for your appointment, which includes an observation period following the vaccine being administered. You will also be given a Vaccine Card that notes your first dose. Please hold onto this documentation.

- Vaccines cannot be provided in one's home so please plan accordingly if you need assistance to attend.

- **As you may know, the Moderna COVID-19 vaccine requires two doses 28 days apart.** You must get both doses for the vaccine to work. The second dose is scheduled for March 7 and March 8. We will share details in advance of that clinic.

- Anyone in quarantine or isolation due to virus exposure cannot be vaccinated or attend the clinic due to the safety precautions we must put

into place. Please continue to protect yourself from exposure by limiting your access to others who may put you at risk.

- Asbury Place Maryville associates who deferred or missed previous clinics will also have the opportunity to receive the vaccine during this clinic.
- We want you to be informed about the vaccine, how it will help in our overall fight to keep our community safe, and what you can expect. Please [click here to view a webpage](#) with detailed information, including Frequently Asked Questions.

As always, please reach out to Erin Cannon (by [email](#) or phone, 865-738-2802) or me with any questions.

Sincerely,

Melissa Fury, MS, RN, FACHE
