A Message from Executive Director Brian Grundusky

Feb. 19, 2021

Dear Residential Living Residents, Family Members & Associates,

As some of you may have heard in recent news reports, the Pennsylvania Department of Health (DOH) acknowledged an issue in the distribution of Moderna COVID-19 vaccines that mistakenly led to second doses being administered to some state residents as a first dose. I am writing to you today with two important updates related to this issue:

1. ***We have confirmed that all Bethany Village residents or associates who received the Moderna COVID-19 vaccine on Feb. 7 or 8 received the proper first dose.***
2. While the first dose was administered correctly to all individuals here, the DOH's error may cause a delay in the delivery of the second dose. **We are still scheduled for the second dose to be administered March 7 or 8, but that date may change depending on the timing of distribution by the state and scheduling by providers.** I will have confirmation on or about March 1 and will share any updates at that time. **In the event the**

second vaccine date does get delayed, the DOH says it would still get everyone the second dose within the appropriate timeframe as established by the CDC.

Please also know that anyone who received the first dose will receive the second dose.

If you have any questions, please let me know.

Sincerely,

Brian D. Grundusky, MHA, NHA
Executive Director
