Associate deaths associated with COVID-19	0	0	0	0

\*The SNF number includes residents coming to Wilson Health Care Center from other levels of living on the Asbury campus.

\*\*In Fall 2020 Wilson Health Care Center began providing COVID-19 care to seniors coming directly from area hospitals and other settings such as home or skilled nursing and assisted living centers. We are privileged to provide these essential health care services to the greater community as well as to Asbury residents.

*The number of COVID-19 cases is reflective of Asbury Methodist Village's location in Montgomery County, MD, of having tested all residents, and of our considerable size with 1258 residents and 767 associates.*
