Care Plan Meeting: Nursing staff will schedule a meeting for you, your primary contact, and the Care Plan team 1-2 weeks after admission. The meeting may take place in person or virtually depending on preference.

Visiting Hours: Guests are welcome seven days a week with flexible hours of visitation.

Dining & Hours: You will be given the menu options daily to choose your meals in advance. Residents who would like something different may order from a menu of other options for breakfast, lunch or dinner.

Pet Policy: Pet owners wishing to bring a visiting pet should make an appointment to visit and complete the required screening process. Appointments can be made by calling Health Care reception at 410-394-3005.

Resident Programs: We offer a wide range of programs addressing all components of wellness.

Appointments: Follow-up appointments are made by Transportation in conjunction with recommendations by nursing.

Transportation: Transportation to appointments is provided upon request.

Social Services: The Social Work Department will work with you and your loved one to set up a care plan meeting to discuss discharge, progression of rehabilitation, nursing updates, etc.

Leaving the Health Care Center: Your safety is very important. Please notify your nurse before leaving the building.

Revised January 3, 2023

Laundry: All personal items should include inside labeling with the resident's name to minimize misplaced items. An associate can assist with this process if needed.

Resident Mail: Staff promptly delivers mail after receipt from the U.S. Postal Service. Outgoing mail may be sent out at the front desk.

Television/Telephone/Internet: Provided at no cost to residents.

Tippling: Our associates appreciate compliments but may not accept tips and gifts.

COVID-19 Safety & Updates: For COVID-19 updates, please enroll in our Family emails at AsburySolomons.org/Events & Resources/Family & Friends.

We follow CDC recommendations and CMS regulations to mitigate infections, including COVID-19. Based on current regional transmission rates, positive cases at our community and your possible exposure status, you may be required to take additional precautions, such as testing or masking or quarantining. Based on these factors, our team will review necessary requirements with you upon admission.

Resident & Family Education for Recommended Adult Immunization Schedule*

*Adapted from the CDC

At Asbury Communities, we are committed to your health and wellness and will support you to follow the recommended adult immunization schedule. We can also provide additional info about any of the recommended vaccinations. Let us know how we can help!

Vaccination is one of the most convenient and safest preventive care measures available. It is important for adults to keep their vaccinations up to date because immunity from childhood vaccines can wear off over time. You may also be at risk for different diseases as an adult or need additional vaccines due to health conditions, job requirements, lifestyle or travel. Talk to your healthcare professional about other recommended vaccines and which vaccines are right for you.

Adult Immunization Schedule Recommendations (by age)

Vaccine	50-64 years	≥65 years
Influenza inactivated (IIV) or Influenza recombinant (RIV4)	1 dose annually	
Varicella (VAR)	2 doses	
Zoster recombinant (RZV)	2 doses	
Pneumococcal conjugate (PCV13, PCV15, and PCV20)	1 dose of PCV20 OR	1 dose of PCV20 OR
Pneumococcal polysaccharide (PPSV23)	1 dose of PCV15 followed by 1 dose of PPSV23 at least 1 year late	1 dose of PCV15 followed by 1 dose of PPSV23 at least 1 year later Reminder: No additional doses are indicated at this age if PCV15 or PCV20 were administered at a younger age.
Tetanus, diphtheria, pertussis (Tdap or Td)	1 dose at least every 10 years	

About the COVID-19 vaccine

All adults are recommended to receive the COVID-19 vaccine. There are multiple options and dose recommendations vary by product and medical indication. Learn more about COVID-19 Vaccination at: <https://www.cdc.gov/covid19>.

General side effects of vaccinations are:

- | | | |
|---|-------------|-------------------|
| Tiredness | Muscle pain | Nausea |
| Headaches | Chills | Allergic reaction |
| Pain, redness or swelling in the vaccinated extremity | | |

Side effects are generally limited the first few days following the vaccine. To alleviate any side effects you may experience, drink plenty of fluids and move your vaccinated extremity often to prevent soreness.

Contraindications to vaccinations may be a history of a prior reaction or allergy to a component. For more info about the recommended vaccinations, please visit:

- COVID-19 Vaccination: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/index.html>
- Vaccine information for Adults: <https://www.cdc.gov/vaccines/adults/index.html>
